New Advantage Transome

A 48mm transom and light duty pressure plate has been added to the Advantage curtain wall product range.

New Advantage Pressure Plate

In addition to this, a light duty pressure plate is also available. Cost savings of up to 33% could be achieved by changing from 65mm type to 48mm type (combined with use of lighter pressure plate).

LIGHT DUTY TRANSOME AND PRESSURE PLATE AVAILABLE

The existing HV033 spigot is used in the assembly process, and existing AB5023 cover is used to cover spigot assembly.

Please consult HBS for information relating to maximum span/glass weight limitations for the 48mm transom.

Visit our website for an extensive range of Technical brochures.
