6	Top Hung Casement Window Handle ?	6.1	HV007 - Y-Seal 4.8mm Base
4	Frame-to-MullTrans conn. ?	4.2	None
2	Frame Gasket Option ?	2.4	HF021 - NK Casement Mullion Spigot
1	Top Hung Friction Slay (CA - AB642) ?	1.7	HV007 - Y Seal 4.8mm Base
-12	Gasket Material ?	-12.3	SEBS
-16	Glass Setting blocks ?	-16.3	2 per pane (2 Blocks under Glass)

It is the responsibility of the Quick Quote user to select the correct hardware item for each type of product he or she is building.

Selecting the correct hardware item ensures that quotations are accurate - by not checking means you could be over-pricing or under-pricing.

QUICK QUOTE HARDWARE WIZARD

If the correct hardware is not selected with the wizard, then:

- Quotations will be incorrect - prices too low - customer loses money or prices too high - customer does not secure work
- Material orders will be incorrect - this could lead to delays in waiting for correct stock to arrive

Please make sure to select the correct hardware in the wizard.

Visit our website for an extensive range of Technical brochures.
