A1	A2	A3	A4	A5	A6	Selected								
1000	1500	2000	2500	3000	3500									

**PART D: TERMS & CONDITIONS**

- HBS Test Centre offers the largest window and fenestration test laboratory in South Africa. Testing is conducted in accordance with SANS 613:2011 (excl. Part 5.7).
- Products can be tested up to the A6 rating where pressures reach 6000Pa (600kg/m<sup>2</sup>) 3000 x 6100mm is the maximum size.
- Refer to the current national price list for cost of testing, code ARYZ4000
- Once test drawings are approved a test date will be agreed upon in writing.
- The invoice will be issued or debited on your account after the test is completed.
- The test will run over 4 days, to allow for pre-testing. The sample delivery is 3 working days prior to the test. HBSTC will run the first
- On the date of the SANS 613 excl. par. 5,7 test, testing starts at 9:00am.**
- All external parties that needs to be at the test has to be there on time.
- The test will take 3 - 4 hours to complete
- Permission is granted to HBS Aluminium Systems Test Centre to use test results.

**PART E: Test Report**

- Within 14 working days the test report will be issued, provided all conditions are adhered to. It will confirm with which performance rating in SANS 613:2011 excl. par 5.7 the test sample complies or if it failed.
- If the test is successful a standard Test Report will be issued.
- If the test is not successful a failed Test Report will be issued detailing the nature of the failure supported by pictures.

**PART F: Applicant Accepts Terms & Conditions**
