ALUMINIUM SYSTEMS

Explorer

European style fenestration

FEATURES

- Tilt & Turn windows and doors for high-end domestic application and modular commercial installation.
- Safety glazing from inside (without scaffolding).
- Top level fit and finish from accurate Pneumatic punching.
- Screens up to 3600 height with 1200mm centers.
- Double and Single glazing up to 32.5mm thickness.
- Compensation and split mullion panel-by-panel installation.

FRAME CONSTRUCTION OPTIONS

Installation w. Lugs or screws.

Fast installation w. Compensating frames.

Fast installation of Large products w. Compensation & Split mullions.

Typical Transom

Typical Mullion

WINDOW OPTIONS

Inside opening

Tilt & Turn Hinged

Side Hung Hinged

Tilt Only Hinged

DOOR OPTIONS

Inside or Out-side opening doors, Single or Double.

HARDWARE & ACCESSORIES

Handles & Hinges stocked in black.
Door Hinges up to 150kg, adjustable.

Tilt & Turn components supplied in kits allow for easy fabrication.

- 3 or 6 point locking.
- up to 90kg per sash.

PERFORMANCE, SANS613:2011 A4 RATED

HBS ALUMINIUM SYSTEMS		Accredited Laboratory Test Certificate SANS 613:2011		sanas Testing Laboratory T0777	
THIS CERTIFICATE RECORDS THE SUCCESSFUL TESTING OF THE TEST SAMPLE INDICATED BELOW IN ACCORDANCE WITH SOUTH AFRICAN FENESTRATION PRODUCT STANDARD SANS613:2011 excl. par. 5.7					
A4 PERFORMANCE CLASS	MANUFACTURER:	HBS ALUMINIUM SYSTEMS		WATER PRESSURE:	500 [Pa]
	TEST SAMPLE:	HBS EXPLORER		DEFLECTION PRESSURE:	2500 [Pa]
	SYSTEM SUPPLIER:	HBS ALUMINIUM SYSTEMS		STRUCTURAL PRESSURE:	3750 [Pa]
	TEST NUMBER:	HBS18-07		AIR INFILTRATION:	0.131 [L/sec/m²]
DATE OF ISSUE: 30 FEB, 2018					
TEST SAMPLE DETAILS:					
DESCRIPTION: EXPLORER w. S.H.SASH, COMPENSATED.					
H X W: 3000 x 3000mm					
DRAWING NAME: 07 – HBS18 - Explorer side hung window					
NO. OF PAGES: 19					
PROFILES USED ON TEST SAMPLE (CODE & DESCRIPTION):					
MULLION: 150mm AB6017					
TRANSOM: 90mm AB6015					
FRAME SILL: 45mm AB6011					
FRAME TOP: 45mm AB6011					
FRAME JAMB: 45mm AB6011					
SASH: 56mm AB504					
SILL: AB6003					
SILL COVER: AB6022					
HEAD COMP: AB6004					
JAMB COMP: AB6004					
COMP. LOCK: AB6022					

- A4 rating (SANS613) allows for High or Low-rise application, coastal or inland.
- A4 rating for Tilt & Turn, side hung and tilt-only sashes.
- Glazing up to 32.5mm allows for great U-values across the range of products and good sound insulation.

PERFORMANCE CHART

PRECISION FABRICATION

- Quick, accurate punching for increased productivity & reduced wastage and cost.
- Excellent fit and finish.

GLAZING

- Single layer safety glass 5-12mm
- Double glazing 21.5 - 32.5mm can be installed w. correct glass support.

REASONS WHY ARCHITECTS, FABRICATORS AND HOME OWNERS LOVE EXPLORER

1. EUROPEAN STYLE FENESTRATION

The Explorer inside glazing system allows for efficient installation, maintenance and repairs.

2. TESTED TO THE LIMIT

Compliance to SANS613 A4 performance class allows it to be specified and installed in almost all occurring conditions in South Africa and regionally.

3. HIGH PERFORMANCE WINDOW AND DOOR SYSTEM

Durability and excellent thermal performance makes all Explorer products suitable for premium domestic or commercial use.

4. LOCALLY STOCKED

Explorer profiles and hardware are available off the shelf, so no extended lead times. Place the order, choose the colour and you will be fabricating and installing in no time.

5. HIGH SECURITY

This internally installed system, together with internal glazing beads and multi-point locking, allows for better security.
